SHED ORDER No. (Eect. /RSO)-09/2026

Sub:- Actionable points noted during the safety review meeting chaired by CRB & CEO held on 07.03.2026.

Ref:- PCEE/NR no.- PCEE/Mom/5041, dated-07.03.2026.

In reference to the above, the following important points were emphasized in safety review meeting chaired by CRB& CEO on 07.03.2026. The actions to be taken for compliance of these items are as under:

- The ongoing drive for operation of the RS Valve by ALP online should be continued.
- Mock drills of RS Valve should be conducted at regular intervals.
- Operation of the RS valve by ALPs should continue regularly, even after all ALPs have been covered once, to reinforce correct practices.
- Intensive training and monitoring should be ensured so that ALPs keep their hand on the RS Valve while passing signals at Single Yellow aspect.
- Ambush checks should be conducted by Loco Inspectors to verify:- Calling out of signals loudly and clearly by both LP and ALP, and Whether the ALP is holding the RS Valve while passing signals at Yellow aspect.
- While taking over charge of locos in yards/ crew changing points, proper usage of RS valve/ emergency valve must be ensured by ALP/LPS.
- ALPs should not hesitate to operate the Emergency/RS Valve if the Loco Pilot is not reducing speed according to the aspect of the signal.
- Proper calling out of signal along with signal name, aspects and speed by Loco Pilots and ALPs while passing signals at Single Yellow aspect must be ensured.
- Speed graph analysis by downloading data from RTIS to continue.
- Shunting operation to be improved, shunting done only from front cab.

All officers and CLIs over the FZR division are hereby instructed to counsel their allotted/non allotted running staff in this regard. The compliance report submitted to the Division Office for further appraisal and submission to HQ.
